SAFETY HEALTH AND ENVIRONMENT POLICY

Kolkata Port Trust makes a commitment for proper occupational safety, health & environment management programmes in Docks and other work areas. A safe and healthy working environment is essential for prevention of work related accidents, illnesses of employees and also for achieving high productivity.

The SHE policy of Kolkata Port Trust will endeavour to work with the following action points:

- a) Prevention of Work Related Injuries and Illness
- b) Safe, Healthy and Hygienic Work Environment
- c) Environmental Surveillance and Emergency Preparedness
- d) Medical Surveillance and Occupational Health Services
- e) Industrial Hygiene & Work Environment Monitoring
- f) OSH Training & Safety Promotional Activities

Our aim should always be to strive for an accident-free safe and healthy working environment in the docks. We aim for zero accidents at workplaces and improve occupational health awareness through training programmes. We appeal to all dock workers and Port Users to strictly follow the safety guidelines at their workplaces and we also seek active co-operation of all Trade Unions in following the safety rules by the dock workers, conscientiously and meticulously, for upholding safety, health & environment management programmes.

(S. Balaji Arunkumar)
Deputy Chairman
&

Chairman Safety Committee for
the Port of Kolkata
